

Providing Originally Sourced Coconut Products from Indonesia

Solving Your Business Needs with Original Indonesian Commodities

IDN.GLOBAL

ABOUT US

IDN.GLOBAL

At IDN.GLOBAL, we are committed to sustainable, high-quality materials that empower businesses worldwide.

Indonesia's rich landscapes yield valuable resources like coconut fiber, husk, and peat, with untapped potential to support both business growth and environmental sustainability.

Our mission is to bridge Indonesian coconut products with your business needs, providing resources that are as beneficial for your enterprise as they are for the planet. With a focus on quality and reliability, we ensure that each product — fiber, husk, and peat — is responsibly sourced and safely delivered from Indonesia to you.

OUR SERVICE

HIGH QUALITY PRODUCT

Providing high quality coconut products including coconut fiber, coconut husk, and coconut peat, meeting your organizational needs.

TAILORED PRODUCT

Tailoring the specification of the coconut fiber, coconut husk, or coconut peat to your operational requirements. Let us know your unique requirements, and we'll deliver.

RELIABLE COMMUNICATION

Creating partnerships based on transparency and trust to be your most reliable coco-partner. We ensure timely responses in every step of the way until you get your coconut products

VALUE-DRIVEN SOURCING

Providing originally sourced coconut products from Indonesia with the best price-offer you can get. Price varies depending on the specifications, but what matters to us is you to get your coconut products.

Cocopeat is an ideal medium for plants, having been extracted and sterilized to optimize pH, EC, and alkalinity. It is safe and comfortable for plants, providing both micro and macro nutrients effectively, with excellent water retention. Additionally, it can be used as livestock bedding due to its soft, absorbent nature and easy cleaning.

Advantages of Cocopeat vs Traditional Soil Planting Medium

Cocopeat	Traditional Soil Planting Medium
Meets plant growth standards	Raw, unprocessed material
Sterilized from bacteria	Cannot be sterilized
High water retention	Low water retention
Efficient nutrient delivery	Less efficient nutrient delivery
Promotes fast plant growth	Slower plant growth
Pest-resistant	Prone to pests
Dry, odorless, easy to store	Moist, can smell, hard to store
Washable and reusable	Not reusable
Suitable for indoor & outdoor use	Less suitable for indoor plants
Ideal for greenhouses	Better for outdoor use

COCOPEAT - SPECIFICATION

COCOPEAT POWDER

Packing : 3 L
Sieve Mesh : 1-6 mm
Sand : < 2%
EC Value : 0.6 mS/cm
PH Value : 5-7
Moisture : +/-20%
MOQ : Kontainer 20 ft 3 MT
MOQ : Kontainer 40 ft 6 MT

COCOPEAT BLOCK

Dimensions : 20 x 30 x 5 cm
Weight : 2 Kg
Mesh : 1-6 mm
EC Value : 0.6 mS/cm
PH Value : 5-7
Moisture : +/-20%
MOQ : Kontainer 20 ft 12 MT
MOQ : Kontainer 40 ft 24 MT

Cocochip like cocopeat, is processed and ideal for climbing plants such as orchids. It enhances root growth and protects plants from external threats. Cocochip retains more water than cocopeat and can be used to beautify plants both indoors and outdoors.

Difference between Cocochip and Cocopeat

Cocochip:

- *Commonly used as a soil amendment or replacement in gardening and horticulture.*
- *Suitable for seed starting, potting mixes, and as a growing medium for hydroponics.*
- *Used to improve moisture retention in sandy soils.*

Cocopoeat

- *Frequently used in hydroponics, as a mulch, or as a base for growing orchids and epiphytes.*
- *Adds bulk and aeration to potting mixes, particularly for plants that require fast drainage.*
- *Used as bedding material for reptiles and small animals due to its coarser nature.*

COCOCHIP - SPECIFICATION

COCOCHIP SIZE M

Packing : 3 L

Dimensions Chip : 0.5 x 0.5 cm

Impurities : 5% Max

Dust : 3% Max

Cut Fibre : < 2%

Moisture : 10-15%

MOQ : Kontainer 20 ft 3 MT

MOQ : Kontainer 40 ft 6 MT

COCOCHIP SIZE L

Packing : 3 L

Dimensions Chip : 1 x 1 cm

Impurities : 5% Max

Dust : 3% Max

Cut Fibre : < 2%

Moisture : 10-15%

MOQ : Kontainer 20 ft 3 MT

MOQ : Kontainer 40 ft 6 MT

COCOFIBER

Cocofiber, is a sterile planting medium that prevents pests and dirt from entering the soil. It strengthens roots and enhances the appearance of plants, making it suitable for both indoor and outdoor use in various forms.

COCOFIBER - SPECIFICATION

COCOFIBER BROWN

Packing : 3 L
Fiber Length : 5 -25 cm
Impurities : 5% Max
Dust : 3% Max
Colour : Brown
Moisture : 10 -15%
MOQ : Kontainer 20 ft 3 MT
MOQ : Kontainer 40 ft 6 MT

COCOFIBER YELLOW

Packing : 3 L
Fiber Length : 5 -25 cm
Impurities : 5% Max
Dust : 3% Max
Colour : Bright Yellow
Moisture : 10 -15%
MOQ : Kontainer 20 ft 3 MT
MOQ : Kontainer 40 ft 6 MT

COCOMIXED

Cocomixed is a ready-to-use planting medium made from coconut fiber, ideal for various plants. This blend combines Cocopeat, Cocofiber, and Cocochip, each serving a specific purpose: Cocopeat acts as the primary planting medium, Cocofiber helps retain moisture and shields from external impurities, and Cocochip supports strong root structure while balancing the plant's oxygen and hydrogen needs.

For today's modern farmers, Cocomixed is increasingly popular in greenhouse setups due to its simplicity, reusability, and practicality. After its life as a planting medium, it can even be repurposed as bedding for livestock, offering a sustainable solution in agriculture. This is an organic way toward a more valuable, high-quality, and recyclable product, supporting a healthier environment.

COCOMIXED - SPECIFICATION

COCOMIXED

Packing : 3 L

Cocopeat : 30%

Cocochip : 40%

Cocofiber : 30%

Dust : 3% Max

Moisture : 25%

MOQ : Kontainer 20 ft 3 MT

MOQ : Kontainer 40 ft 6 MT

Premium Animal Bedding for Comfort & Sustainability.

Cocohusk is designed specifically as bedding for animal enclosures, particularly reptile Habitats. It offers a natural, eco-friendly bedding solution that promotes pets' health and well-being. Cocohusk is highly absorbent, washable, reusable, and biodegradable, ensuring a clean and bacteria-free environment for the pets.

Cocohusk goes through a meticulous production process with modern machinery to deliver sterilized, easy-to-use bedding. Each detail is carefully managed-from removing sap, coarse fibers, and impurities-to provide smooth, absorbent, and safe bedding. Its soft texture is gentle on pets, maintaining moisture balance to naturally prevent bacteria and mold growth.

COCOHUSK - SPECIFICATION

COCOHUSK

Packing : 3 L

Dimensions Chip : 1 x 1 cm

Impurities : 5% Max

Dust : 3% Max

Cut Fibre : < 2%

Moisture : 10-15%

MOQ : Kontainer 20 ft 3 MT

MOQ : Kontainer 40 ft 6 MT

COCOROPE & COCOMESH

Cocoropec is a durable rope made from coconut fiber. This natural fiber undergoes a process of extraction and cleaning to remove impurities and sap, resulting in long, strong fibers ready to be crafted into a robust, elastic, and weather-resistant rope.

Cocoropec is not only used as a multipurpose rope for various needs but is also increasingly applied as a construction material. Its flexibility, strength, and durability make it ideal for securely binding materials together. Additionally, this eco-friendly product is easily recyclable, making it a proud choice for those committed to a sustainable and healthy environment.

MOQ : Kontainer 20 ft 12 MT
MOQ : Kontainer 40 ft 24 MT

WALL PANELS

Wall panels — commonly known as decorative sheets — are installed on interior walls to enhance aesthetics and add visual interest. In some designs, ceilings are also fitted with panels to achieve a more appealing look.

A new innovation has been introduced in wall paneling through the development of an eco-friendly, recyclable solution made from organic materials. These panels, known as Cocoshell and Cocochip wall panels, are crafted from coconut fibers and produced using a sustainable raw material supply.

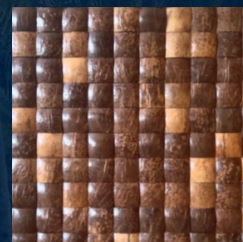

A healthier environment is being promoted through the use of these natural resources, aiming to encourage eco-conscious living in today's world. Unlike synthetic panels widely found in the market, this product is offered as an ideal, efficient, and effective choice for those committed to sustainability and reducing global warming.
